1 Education

Bachelor of Science in Computer Science

May 2023

University of Example, City, State

- GPA: 3.8/4.0
- Relevant Coursework: Data Structures, Algorithms, Database Systems, Machine Learning

2 Work Experience

Software Engineer Intern

June 2022 – August 2022

Tech Company, City, State

- Developed and maintained web applications using Python, Django, and PostgreSQL.
- Collaborated with a team of 5 engineers to implement new features, improving user engagement by 15%.
- Wrote unit tests and conducted code reviews to ensure code quality and reliability.

Research Assistant

September 2021 – May 2022

University of Example, City, State

- Conducted research on machine learning algorithms for natural language processing.
- Published a paper in a peer-reviewed journal on sentiment analysis techniques.
- Presented findings at the Annual University Research Conference.

3 Skills

- **Programming Languages:** Python, Java, C++, JavaScript
- **Tools & Frameworks:** Django, React, Git, Docker
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Other:** Data Analysis, Machine Learning, Agile Methodologies

4 Projects

Personal Portfolio Website

January 2023

- Built a responsive portfolio website using HTML, CSS, and JavaScript with React framework.
- Deployed the site on GitHub Pages, showcasing personal projects and achievements.

- Developed a sentiment analysis model using Python and scikit-learn, achieving 85% accuracy.
- Integrated model into a web application for real-time text classification.
